

SUPPLEMENTARY FIGURES

Supplementary Figure 1. PDX tissue and tumor tissue are the same individual origin by STR profile. (A) Short tandem repeat (STR) profile of patient tissue. (B) Short tandem repeat (STR) profile of PDX model.

Supplementary Figure 2. Relative expression of TNC, CLEC2B, NTSR1, MT-TL2 and MDK in the four treatment groups by RT-qPCR. Treatment groups referred to PDX tumors harvested from mice. *** $P < 0.001$; -, no statistical difference.
