

SUPPLEMENTARY TABLES

Please browse Full Text version to see the data of Supplementary Tables 1–3

Supplementary Table 1. Differential expression of miRNAs between malignant esophageal tissue and normal in GSE6188.

Supplementary Table 2. Differential expression of miRNAs between malignant esophageal tissue and normal in GSE43732.

Supplementary Table 3. Top pathways associated with 162 candidate targets of miR-203 in EC according to the enrichment analysis based on GO biological process.
